**Town Crew to Repair Chapman Brook Bridge — Selectmen Put 25 mph Limit on "Old Grover Hill Road" Traffic**

On June 16, four members of the Bethel Police Department received certificates for completing an in-service police training program sponsored by the Oxford County Sheriff's Department. Chief Robert Stearns, Phil Coolidge, Arnold Brown, and Joyce Stearns all completed the course which included subjects such as: Arrest Techniques, Probable Cause — Search and Seizure, Disturbance Calls, Criminal Investigation, Interviews and Confessions, Accident Investigation, and Patrol Procedures. Sgt. Bill Williams of the Sheriff's Department served as the coordinator of the Training Program.

During the week of July 9-13, Highway Department personnel will be repairing Chapman Brook bridge. Truck traffic will be limited during that period, however, every effort will be made not to disrupt passenger vehicle traffic.

The Board of Selectmen met Monday evening, June 25. A public hearing was held on the establishment of a 25 mile per hour speed limit on the Old Grover Hill Road from its intersection with U. S. Route #2 to the Oscar Annis residence. Several residents spoke in behalf of the change and no one expressed opposition. After discussion this change was approved unanimously by the Selectmen.

The Recreation Board met with the Selectmen to review current program and activities and discuss possibilities for future expansion and related funds raising possibilities. The Selectmen suggested that the Recreation Board put together greater detail on proposed projects together with related capital and operating costs.

The Selectmen appointed Robert Whitney and Larry Davis as members of the Community Safety and Law Enforcement Committee and Roland Glines as a member of the Municipal Facilities Committee to replace Archie Young who had resigned.

A meeting with Water District Trustees and Superintendent Rich-

ard Enright was held and the Selectmen asked questions relative to use of water from fire hydrants other than for fire fighting purposes and expressed concern about the cost of snow removal around hydrants.

A quit-claim deed was signed for the Annie Crane property to release tax liens which had been paid. The Selectmen approved an amendment to the sewer system study to include sludge disposal site selection. This work was authorized at the special town meeting in April.

The Town Manager reviewed the financial status of the sewer system since the construction of the treatment plant in 1972-73 with the Selectmen.

Authorization was given the manager to purchase a sander for the highway department and to work with Sheriff Alton Howe to develop an arrangement for using part-time Sheriff's Department personnel for part-time police department work.

The Selectmen's next meeting will be Monday evening, July 16.

## TWO ARRAIGNED IN CONNECTION WITH LOCKE MILLS HOMICIDE

Randolph R. Lord, 26, of Bryant Pond, and Richard D. Kimball, 24, of Norway, were arraigned Tuesday in district courts in South Paris and at Biddeford in the beating death of Frank A. Carkins, 76, of Locke Mills.

The case involving Kimball, who was arrested in York County and appeared in Biddeford court, was transferred to Oxford County, where Judge John L. Batherson appointed Attorney Paul Dumas of Rumford to serve as his counsel. Attorney David Whittier was appointed to represent Lord.

Both men entered no plea at their respective arraignments and they were remanded to the Oxford County Jail where they are being held without bail.

A probable cause hearing is scheduled for July 24 at 11 a. m. in 11th District Court.

Assistant Attorney General David Cluchey is handling the case for the state.

The body of Frank Carkins was discovered in a shack near his home off the Gore Road in Locke Mills last Friday afternoon. An autopsy at Augusta on Saturday revealed that he died as a result of a severe beating to the head and chest.

Lord was apprehended in South Paris, and Kimball in Hollis, on Sunday morning.

## Area Health Center Adds Physician's Assistant to Staff

Gerald T. O'Connor, a Physician's Assistant, has recently joined the staff at the Bethel Area Health Center. Gerry comes to the Bethel area with an extensive background in both primary medical care and community health education. His most recent experience was at Dartmouth Medical School where he has been on the faculty for the past year as an instructor in Clinical Community Medicine. Prior to that position, Gerry practiced family medicine for four years in Lyndonville, Vt., in a clinic very similar to the Bethel Area Health Center and was Director of Health Services for the Vermont State College.

Gerald T. O'Connor

As a Physician's Assistant, Gerry has the skills and academic and practical training to provide patient service in association with a licensed physician. He performs physical examinations, diagnoses and treats acute problems, and manages chronic conditions. An on going interest of Gerry's has been teaching medical self care to laypersons and he hopes to implement patient health education programs at the Center.

Originally from New Jersey, Gerry graduated from Columbia University receiving his undergraduate degree in biochemistry. Before taking his medical training at the University of Vermont College of Medicine, he worked for five years in medical research and

authored several journal articles on biochemical genetics and physiology. Gerry has also earned a Master of Arts degree in Public Health from Goddard College and is currently completing the Doctor of Philosophy degree in Public Health and Preventive Medicine from Union Graduate School. He hopes to complete his dissertation, a book on health education in family practice, this year.

In addition to medicine, Gerry's interests range from writing to fishing and mountain climbing; an avid mountaineer, he recently participated in an expedition to climb Popocatepetl and Orizaba, two peaks in central Mexico. He presently resides on Vernon Street with his daughters Nancy and Coleen.

## BETHEL PLANNING BOARD MET WEDNESDAY EVENING

The Bethel Planning Board met at the Town Office Wednesday night. They decided to forego detailed discussion of the draft subdivision regulations until they have heard comments on the present draft from representatives of the Androscoggin Valley Regional Planning Commission (AVRPC). They will meet with AVRPC staff on July 12, at 7 p. m. in the Town Office.

In the last two weeks, Planning Board members have toured the Bethel and West Bethel water systems with Water District Superintendent, Richard Enright. Mr. Enright and Water District Trustee Robert Saunders met with the board last night to discuss how the Water District might be involved in the process of considering a new subdivision in the town, specifically those either on the present system or close enough to tie into it. Enright explained the state regulations governing water main extensions, and those that govern the water district in its normal operations. Mr. Saunders and Mr. Enright discussed with the board instances in which problems with new subdivisions might arise.

In order to acquaint themselves with both the regulations and the realistic constraints that affect the provision of essential services to subdivisions in town, the board plans to talk at an early date with the Town Manager, Norman Ness, concerning the sewer system, and with Code Enforcement Officer Sam Timberlake, concerning the Maine State Plumbing Code.

## \$14,625 EPA Grant Awarded to Town of Woodstock

The U. S. Environmental Protection Agency has awarded Woodstock, Maine a \$14,625 grant to develop a master plan for water pollution control.

The funds will be used to develop an alternative to the town's present wastewater treatment system which consists of septic systems, many of which are failing. The study will include evaluation and cost-effectiveness analysis on various treatment system alternatives, preliminary design of a recommended solution, an environmental assessment and a public hearing.

In addition, during the preparation of this facilities plan, the Maine Department of Environmental Protection will perform water quality monitoring on Lake Christopher and its tributaries to determine the extent of any water quality problems and probable sources.

The estimated study cost is \$19,500. EPA will cover 75% of this cost while state and local funds will cover the remaining 25%.

— Mrs. Callista Morgan, Corres. —

Go out and meet a summer morning, when the dew is still being burned off and the fog hangs over a pond and in hollows. Get up early for the early rising brings rewards. If your smell is good, a morning in Maine in the country is bound to bring the essence of June. You will surely understand the axiom "The nose knows how the world goes." In the meadows and woods your nose will lead you through summer lushness, the richness of moss, ferns, herbs, and water plants. You can bathe in the fragrance of wild flowers, grasses, and weeds.

There is a feeling of tranquility brooding over the fields. The sun hangs golden in the blue sky. Early roses are blooming and one may pause and watch the glistening dew fading from the pink-cupped petals. The breeze carries the fragrance, heady and intense.

"Let me wake in the early dawn, when the grass is flecked with dew."

And gather a basket of roses, That will last the whole day through.

There's yellow and white, crimson and pink;

Now my basket overflows, I've captured the essence of summer.

There in the heart of each rose."

— Peggy Mouch —

About 9:30, Ruth, Fay, and I decided it was wild strawberry time, one of Nature's many free gifts of field and forest. Wild strawberry time is set apart as a special season on the calendar.

We climbed through the daisies, buttercups and grasses to the top-most field. Where a few weeks ago there was a profusion of white flowers with gold in the centers now there were small fruit, deep crimson, in color. I admit, the day was so perfect that often I stood to gaze at the scenery, the azure sky above my head, the low feathery clouds drifting, the fields studded with daisies and the hills jeweled in emerald.

What can be better than a hot biscuit generously buttered; covered over with these crushed red mugs and plenty of cream! It is best not to consider calories in strawberry time.

After lunch Ruth and I went hiking. We drove in by the old school house. I wondered—did I teach here for 42 years? What a change!

Down by the gravel pit we left the car to walk.

A sign at the bridge over the Mile Brook said, "Pass at your own risk." We did and said, "What risk?" We took the road over Whittle Hill.

The first year that I taught school I traveled this way on foot or on skis. Today it's a trail for snowmobiles in winter or logs in summer.

We first encountered mud and mosquitoes. We pushed on to the top of the hill, where once stood a house, clear in Ruth's memory from many hours of play there when a child. I could see it all as she described the house, fields, trees, and even the pig that tried to eat a favorite doll. I even heard the ripping sound as the pig tore it apart before she and her playmate could have time to rescue it. "Memories are forget-me-nots gathered along the way."

Going down the other side of the hill we found the road better and could hear the sky-born music and see the fringe of the ferns. The air had a soft luster, the sky very soft and delicate. Such a day as this the poet Lowell had in mind when he wrote, "What is so rare as a day in June?"

We turned aside part way down the hill to see the stone recently placed on a Revolutionary War soldier's grave.

**SUMMER PLAYGROUND**  
The Bethel Recreation Board sponsored Summer Playground Program opened Monday and is now underway at full tilt. Softball and kickball games were the highlight of the first day for many of the 43 youngsters who attended. Checkers, dominoes, wonderball, horseshoes, marbles and frisbee tossing were other popular games. After lunch, two groups got together and performed quick skills for the others to watch and enjoy. There is talk about a play for next week's Friday morning Theatre, and guest artists are scheduled to make appearances at the playground. Five teenage volunteers are working as Play Leaders with Playground Director Gail Sysko. And this year a Junior Playground Leaders group has begun. It includes sixth graders on the playground who volunteer to help in the leadership of the other children. The five teenage volunteers are: Laurie Kimball, Dennis Boudreau, Erik Froberg, Raymond Boudreau, and Christine Rayne. Junior Leaders are Dawn Myers, Kirsten Froberg, Elissa Gerson, Angela Herrick. Tuesday, guest artist Carol Gersen came to show the youngsters how stamp pads, fruits, vegetables and paper add up to lots of interesting pictures. She is scheduled to return next week.

Any child who has not registered for the Playground, and would like to attend, may do so by getting a form at the Town Office or at the Playground.

**EDUCATION WORK COUNCIL TO WORK WITH TEACHERS ON CAREER EDUCATION**

Plans are being made for a group of M.S.A.D. #44 teachers under the leadership of Kathy Guinness, Telstar Guidance Counselor, to meet during the summer to plan career education activities for next year. The Education Work Council in co-operation with the teachers, will assist in arranging for community representatives to work with students so that students have the opportunity to find out about various occupations directly from people working in the field. In addition, the Education Work Council will assist in providing occupational information for use by both teachers and students.

The Council plans to continue the "Teachers in Industry" project which was started last year as a way to help teachers become more familiar with local businesses. The "Teachers in Industry" experience tried last year was enthusiastically received by both teachers and the company involved. The Education Work Council feels that active community involvement in career education activities is important in helping young people make the move from education into work. Suggestions are welcome from the community of ways to improve the efforts of the Council.

**WALKING WITH JESUS CHRIST**  
Memories and Promises

Ever look into the eyes of an elderly person and wonder about their thoughts? We know, because we're surprised to find ourselves in that span of life too—even as our grandparents were—well along in years.

Memories tug at our hearts, and as we reflect they seem to come alive—we recall the many promises that so often faded away—we wish we could hold back the years to meet the warmth of springtime with a renewal of strength.

We take a look at the Bible, the Book of Ecclesiastes, chapter three: "To everything there is a season, and a time to every purpose under heaven: a time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted."

We wander and strive, searching for an answer to "What's it all about?" What future do I have—can I put my hope in something lasting and real?

"In the beginning God created the heaven and the earth"—and God said, let us make man in our image, after our likeness. So, God created man in his own image, in the image of God created he him, male and female created he them." He loves us, and wants us to trust him, to walk and talk with him—yet, he having given us the free will of saying yes or no—"like sheep have gone astray"—refuse his love and care.

Two thousands years ago, God and hope for tomorrow.

In his continuous effort to bring us to him; sent us a Promise, his Son, Jesus Christ—to die on the blood-stained Cross as a sin bearer, so that in order we might receive the gift of the Holy Spirit—the true promise of a fellowship with God—now, with strength, courage all ye that are heavy laden, and I will give you rest." Matt. 11:28.

Jesus calls us: "Come unto me, Come to him now, take hold of his promise."

**SOCIAL SECURITY NUMBER NEEDED BY ALL WORKERS**

Many young people in Bethel area will be looking for their first summer jobs this year. They will all have one thing in common. They will all need Social Security numbers.

"People who are considering working for the first time this summer and don't have Social Security numbers yet should apply for them now," said Michael Devlin, Branch Manager of the Rumford Social Security office. "Every application for a Social Security number is screened against central files in Baltimore. This prevents one person from getting more than one Social Security number, but this takes time. You should apply for your social security number before you need it so that you'll have it when you need it," Mr. Devlin added.

When you go to your local Social Security office to apply for your own Social Security number you must present evidence of your age, identity and citizenship. Naturally your birth certificate is the best proof of your age and citizenship. If you do not have one, a baptismal certificate will do.

As evidence of identity you should present a drivers license, voters card, school identification, draft card, U. S. Passport, library card with your signature on it or any other document bearing either a signature or photograph.

"Once you've been issued a Social Security number, it is yours and yours alone for life, you need never apply for another Social Security number. If you lose your card or forget your number, Social Security will help you get another card with the same Social Security number that you were originally issued," Mr. Devlin said.

An important function of your Social Security number is the role it plays in your future. As long as you have earnings from which Social Security taxes are deducted, you are building valuable retirement, disability, survivors and Medicare benefits for the future. A lifetime of work may be credited to a workers' Social Security number, so be sure that your employer copies your name and number correctly from your new card onto his records.

To apply for a Social Security number, or to replace a lost Social Security card, visit your local Social Security office today.

## GASOLINE STORAGE—AN EXPLOSIVE PROBLEM

With the prospect of gas stations closing on week ends and gasoline getting harder to find, many Maine motorists may be tempted to stash away a few gallons for emergencies. The emergency may turn out to be far more serious than running low on gas, the Insurance Information Institute warns.

Fuel handlers estimate the vapor from one gallon of gasoline has the explosive force of 40 pounds of TNT. Gasoline can explode without warning, reducing a home to rubble or turning a car into a fireball. You put yourself in this danger when you store gasoline in your home or in the trunk of your car, says the Institute.

The storage of gasoline is in violation of the law in many communities since it represents an extreme danger to life and property. Gasoline is continually giving off explosive vapors that could be ignited by sparks or flames from heaters, electrical equipment or cigarettes, with disastrous results.

You're driving a bomb if you have gasoline in the trunk of your car, the Institute says. The trunk affords little chance of air circulation and gets hotter than the driving compartment. Escaping vapors can explode without warning when touched off by the electrical system. In the event of a rear-end collision, the car and occupants would be a complete write-off.

Storing gasoline anywhere but in the gas tank of your car is taking a chance with your life—and with the lives of others.

**BIKE-A-THON A SUCCESS**  
Over six hundred dollars has been raised by 26 riders. Twenty-two middle school students and four high school students rode to Rumford and back on June 9. FROM THE BETHEL LIBRARY

Due to uncontrolled circumstances, the article, "Meet the Author, Sue Farrar" at the Bethel Library was omitted.

At this time I would like to comment on a sore spot for librarians. Is it better to be a thief and not return an overdue book than to suffer being ashamed and pay a fine of 2 or 1 cents a day not to exceed cost of the book?

The library is a free service to the people if this privilege is not abused. If patrons could just be a bit more responsible and return books on time or renew them I would be a much happier librarian.—Virginia D. Keniston.

At Bethel Library Tuesday mornings will be open to grades K-3 (9:30); grades 4 and 5 (10:30) for Story Hours. On Thursday morning (10-11) is Story Hour time for pre-school, 3-5 years old.

Book Selection Committee meeting is Tuesday evening at the Library.

UMF DEAN'S LIST ANNOUNCED

Students named to the Dean's List for the spring semester at the University of Maine at Farmington have been announced.

Those who achieved grade point averages above 3.4667 were listed in the honors category (top 25%), while those with a 3.9 and above had high honors (top 5%).

Named to the list from Oxford County were—High honors, Cathy Hazelton, East Peru; Sally Puaia, Mexico; Deborah Waisanen, Oxford; Lorraine Louvat, Rumford; Dorothy Milligan, Rumford Point; Honors: Sharon Briggs and Sharold Nuppala, Andover; Nancy Brown, Bethel; Julia Edwards, Bryant Pond; Jean Boyd, Leah Boyd, and Nathaniel Buck, Buckfield; Kathryn Wilson, Center Lovell; Susan Tirotta, Hanover; Molly Ladd, Leah Palmer, Dale Roberts and Cynthia Swett, Mexico; Bonnie Bartlett, Norway; Deborah Bulger, Philip Deane, Brenda Gallant, Patrick Hurley, Nelson Parise, and Andrew Todd, Rumford; Nancy Wiley, South Paris; Susan Nason, South Hiram; Laurene Moore, South Paris; and Julia Malia, West Peru.

The key speaker of the evening was Jack Carpenter of Boston who is the New England Regional Director of Young Life. He told the audience how much today's youth needs understanding and caring from adults and a chance to reach their personal fulfillment. Young Life offers this through their programs and service.

Punch, tea and coffee were served at the conclusion of the meeting with delicious desserts on tastefully decorated tables. Music for the evening was provided by an accomplished guitarist.

Summer vacation. Arrangements for this event were made by Mrs. Keniston. The program was held in the newly completed children's room.

**FROM THE BETHEL LIBRARY**

Due to uncontrolled circumstances, the article, "Meet the Author, Sue Farrar" at the Bethel Library was omitted.

At this time I would like to comment on a sore spot for Librarians. Is it better to be a thief and not suffer being ashamed and pay a fine of 2 or 1 cents a day not to exceed cost of the book? The Library is a free service to the people if this privilege is not abused. If patrons could just be a bit more responsible and return books on time or renew them I would be a much happier Librarian.—Virginia D. Keniston.

At Bethel Library Tuesday mornings will be open to grades K-3 (9:30); grades 4 and 5 (10:30) for Story Hours. On Thursday morning (10-11) a Story Hour time for pre-school, 3-5 years old.

Book Selection Committee meeting is Tuesday evening at the Library.

**ON OPENING DAY** — The Bethel Summer Playground opened Monday of this week at Crescent Park School. Shown above in foreground are, left to right: play leaders, Laurie Kimball and Ray Boudreau and junior play leader Dawn Myers.

**GILEAD WOMEN MET JUNE 10** — The Gilead Women's Club met on Tuesday, June 19 at the library with half the members in attendance. Final plans were made for the sale to be held Saturday, June 23.

Discussion was held about what to sell at Mollycoddle day and it was decided the same as last year: home baked food and drinks also some home-sewn articles.

The next meeting will be July 17 at 7:30 at the Gilead Library. All members should try to attend, as plans for Mollycoddle day will be finalized.

Refreshment committee is Nancy Corriveau and Georgia McArthur.

**UMF DEAN'S LIST** ANNOUNCED

**"MEET THE AUTHOR DAY"** — On Thursday, May 31, The Bethel Town Library was the scene of a "meet the author" day. Students from the 3rd, 4th and 5th grades at Crescent Park School had an opportunity to meet and talk with Sue Farrar (above) author of "Samantha on Stage". The program focused on the many and varied processes involved in writing a book. A question and answer period followed Mrs. Farrar's presentation. Mrs. Virginia Keniston, town librarian, explained the summer reading program and invited all students to make full use of the library during the summer vacation. Arrangements for this event were made by Mrs. Keniston. The program was held in the newly completed children's room.

**YOUNG LIFE HOLDS INFORMATIONAL MEETING IN SOUTH PARIS**

An informational meeting was held by Oxford County Young Life on June 20 in the Junior High cafeteria in South Paris with approximately 100 people in attendance.

Stanley Cornwall, a prominent business man in the area, served as master of ceremonies. He introduced Rob Noll who is Young Life Area Director, giving a thumbnail sketch of Rob's past experience and achievements working with young people both in Maine and in Colorado.

Robin's remarks were most enlightening, referring to the goals and successes of Young Life stating that it is an international organization functioning since 1938 and serving over 75,000 young people.

Kurt Brown of Bethel, who is a member of the Oxford County Leadership team, related rewarding experiences he had attending Young Life's Frontier Ranch in Buena Vista, Colo., and Saranac Village in New York State.

The key speaker of the evening was Jack Carpenter of Boston who is the New England Regional Director of Young Life. He told the audience how much today's youth needs understanding and caring from adults and a chance to reach their personal fulfillment. Young Life offers this through their programs and service.

Punch, tea and coffee were served at the conclusion of the meeting with delicious desserts on tastefully decorated tables. Music for the evening was provided by an accomplished guitarist.

"Skip" and Evelyn Chamberlain

Feted on 40th Anniversary

The North Paris Community Hall was packed full of relatives, friends, neighbors and co-workers to help "Skip" and Evelyn Chamberlain celebrate their 40th wedding anniversary, June 24, 1979. Many young folks were present. It seemed like "old home day" or an old fashioned picnic. All the ladies brought a donation for the buffet style refreshments. The hall was prettily decorated in red and white with wedding bells and streamers.

Evelyn was presented a lovely corsage of American beauty and white roses, but I forgot to notice if "Skip" had a posy. Patricia Chamberlain and Hardy Litchfield

had charge of the guest book. Gail and Jeremy Oja had charge of the gift table and Jeremy hung the many cards on a wire line with many of Penley Corp.'s spring clothespins. Maybe they were made by Evelyn as she has worked on the automatic spring pin machine for many years. The wedding cake was made by Linda Richardson and was decorated in the traditional colors of white and ruby. Daughter Susan Litchfield and daughter-in-law Ruth Chamberlain dipped punch. Joe Allen tended the bar. Beryl Oja and other family members helped to keep the tables loaded. Everyone seemed to enjoy themselves.

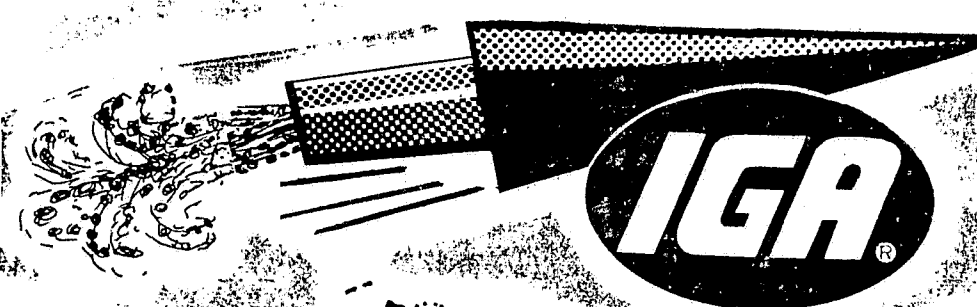

A small girl came to the party in a bed that could be pushed like a wheel chair. She had had a hip operation. She had refreshments and talked with people, and I missed out on her name.

"CARMO CRAFTS" NEW BETHEL AREA BUSINESS — WELCOMED BY C. OF C.

West Bethel will see the opening of the area's newest business on Sunday, July 1—a shop specializing in plaster crafts including statues, plaques, lamps and planters. The name: "Carmo Crafts". Owners of this new enterprise are Carol Campbell and Marlene Marshall who moved into the Bethel area from Amherst, N. H. Marlene is a native returning home but Carol says that Dallas, Tex., is her home.

The Greater Bethel Chamber of Commerce welcomes this addition to the business community and wishes the owners success in their venture.

Located on Route 2 between the L & F Country Store and Moore's Restaurant in West Bethel, Carmo Crafts occupies the Lyon's Apple Store which by the way will continue to operate in the fall as a combined function of the craft shop. Herbie's apples will be sold by Carol and Marlene.

Why did they choose this business and location? A combination of an avocation in this line and wanting a retail shop that could be coupled with their residence is the answer.

The chamber asked the owners

whom they saw as the most likely customers. They see the plaster creations as both gifts, ideal decoration accents and possibly as store front props for business displays. The plaques also catch the eye as good items for a group or club to give its members on special occasions. Some examples on display include an owl sitting under a lamp, an old set of block ends and a large hand holding either a planter base or an ashtray.

Each piece is basically a work of love because the selections of pieces, their color and finish are done at the shop by Carol and Marlene so that it is their eye for style and their artistic touch which makes this shop what it is—a working shop, more than just a retail store.

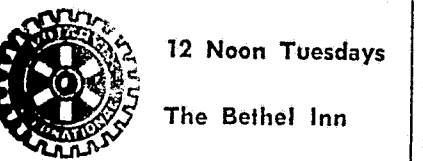

On opening day everyone is invited to stop by for coffee, lemonade and homemade cookies, meet the owners and browse. Opening hours are 10:30 a. m. to 8 p. m.
